Independent Auditor’s Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards ................................................................. 3

Independent Auditor’s Report on Compliance For Each Major Federal Program and on Internal Control Over Compliance in Accordance with OMB Circular A-133 ...................................................... 5

Independent Auditor’s Report on Financial Statements .......................................................... 8

Financial Section .....................................................................................................................11
The results of our audit of Skagit Transit are summarized below in accordance with U.S. Office of Management and Budget Circular A-133.

**FINANCIAL STATEMENTS**

An unmodified opinion was issued on the basic financial statements.

**Internal Control Over Financial Reporting:**

- **Significant Deficiencies:** We reported no deficiencies in the design or operation of internal control over financial reporting that we consider to be significant deficiencies.

- **Material Weaknesses:** We identified no deficiencies that we consider to be material weaknesses.

We noted no instances of noncompliance that were material to the financial statements of the Authority.

**FEDERAL AWARDS**

**Internal Control Over Major Programs:**

- **Significant Deficiencies:** We reported no deficiencies in the design or operation of internal control over major federal programs that we consider to be significant deficiencies.

- **Material Weaknesses:** We identified no deficiencies that we consider to be material weaknesses.

We issued an unmodified opinion on the Authority’s compliance with requirements applicable to each of its major federal programs.

We reported no findings that are required to be disclosed under section 510(a) of OMB Circular A-133.
Identification of Major Programs:

The following were major programs during the period under audit:

<table>
<thead>
<tr>
<th>CFDA No.</th>
<th>Program Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>20.500</td>
<td>Federal Transit Cluster - Federal Transit - Capital Investment Grants</td>
</tr>
<tr>
<td>20.507</td>
<td>Federal Transit Cluster - Federal Transit - Formula Grants</td>
</tr>
</tbody>
</table>

The dollar threshold used to distinguish between Type A and Type B programs, as prescribed by OMB Circular A-133, was $300,000.

The Authority qualified as a low-risk auditee under OMB Circular A-133.
Independent Auditor’s Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

Skagit Transit
Skagit County
January 1, 2012 through December 31, 2012

Board of Directors
Skagit Transit
Burlington, Washington

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, the financial statements of Skagit Transit, Skagit County, Washington, as of and for the year ended December 31, 2012, and the related notes to the financial statements, which collectively comprise the Authority’s basic financial statements, and have issued our report thereon dated September 13, 2013.

INTERNAL CONTROL OVER FINANCIAL REPORTING

In planning and performing our audit of the financial statements, we considered the Authority’s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority’s internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority’s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Authority's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did
not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**COMPLIANCE AND OTHER MATTERS**

As part of obtaining reasonable assurance about whether the Authority’s financial statements are free from material misstatement, we performed tests of the Authority’s compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**PURPOSE OF THIS REPORT**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority’s internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose. However, this report is a matter of public record and its distribution is not limited. It also serves to disseminate information to the public as a reporting tool to help citizens assess government operations.

TROY KELLEY  
STATE AUDITOR  

September 13, 2013
REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM

We have audited the compliance of Skagit Transit, Skagit County, Washington, with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2012. The Authority’s major federal programs are identified in the accompanying Federal Summary.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Authority's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Authority's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination on the Authority's compliance.
Opinion on Each Major Federal Program

In our opinion, the Authority complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2012.

REPORT ON INTERNAL CONTROL OVER COMPLIANCE

Management of the Authority is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Authority's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program in order to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

PURPOSE OF THIS REPORT

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose. However, this report is a matter of public record and its distribution is not limited. It
also serves to disseminate information to the public as a reporting tool to help citizens assess government operations.

Independent Auditor’s Report on Financial Statements

Skagit Transit
Skagit County
January 1, 2012 through December 31, 2012

Board of Directors
Skagit Transit
Burlington, Washington

REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying financial statements of Skagit Transit, Skagit County, Washington, as of and for the year ended December 31, 2012, and the related notes to the financial statements, which collectively comprise the Authority’s basic financial statements as listed on page 11.

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Authority’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.
We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Skagit Transit, as of December 31, 2012, and the changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

**Other Matters**

*Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 12 through 17 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

*Supplementary and Other Information*

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Authority’s basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. This schedule is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

**OTHER REPORTING REQUIRED BY GOVERNMENT AUDITING STANDARDS**

In accordance with *Government Auditing Standards*, we have also issued our report dated September 13, 2013 on our consideration of the Authority’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on
compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Authority's internal control over financial reporting and compliance.

Management Discussion & Analysis

This section of Skagit Transit’s Annual Financial Report presents management’s overview and analysis of the PTBA’s financial performance for the fiscal year ending December 31, 2012. This section should be read in conjunction with the financial statements and notes to the financial statements that follow this section.

Financial Highlights

- The assets of Skagit Transit exceeded its liabilities at December 31, 2012, by $33,084,280. Of this amount, $16,005,310 may be used to meet Skagit Transit’s ongoing obligations to provide services to the public, including the capital program, and to meet the obligations of creditors.
- Skagit Transit total net assets increased by $2,333,652 in 2012. The overall financial condition of Skagit Transit as of December 31, 2012 was considered to have improved. Reserve funding was authorized to be used between 2000 and 2002 for operations, but a major layoff occurred on October 31, 2002, which insured that future spending of the Reserve Funds would not occur in order to balance the operating budget. At year-end, the budget was balanced with Skagit Transit projected to remain in the black for operating expenses throughout 2013.
- Passenger Fares increased by $119,628 between 2011 and 2012.
- Skagit Transit remained free of long-term debt during the period.

### Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the basic financial statements. The notes to the financial statements also contain more detail on some of the information presented in the financial statements. The financial statements of Skagit Transit report information about the PTBA using accounting methods similar to those used by private sector companies.

The Statement of Net Position presents information on all the PTBA’s assets and liabilities, with the difference between the two reported as net position. Over time, increases and decreases in net position may serve as a useful indicator of whether the financial position of the PTBA is improving or deteriorating.

The Statement of Revenues, Expenses and Changes in Fund Net Position present information showing how the PTBA’s net position changed during the fiscal year. All changes in net positions are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus revenues and expenses are recorded in this statement.
for some items that will only result in cash flows in future fiscal periods (for example, sales tax collected by merchants but not yet remitted to the PTBA, and earned but unused vacation leave). This MD&A should be viewed along with the attached financial statements. The notes to the financial statements provide additional information that is essential to a full understanding of the data provided within financial statements. The notes to the financial statements can be found in this report.

Financial Analysis

Net Position

For the year ending December 31, 2012, assets exceeded liabilities by $33,084,280. Transit is a capital-intensive enterprise, and 51.6% of Skagit Transit’s net assets are invested in capital assets.

Skagit Transit ended 2012 with $17,078,970 in Capital Assets. See Note 3 for further information.

During 2012 Capital Assets increased by $344,903. Skagit Transit purchased one (1) staff vehicle, eight (8) new buses and twenty-four (24) new vans for the vanpool program in 2012. Skagit Transit also purchased three (3) 2004 Gilligs Buses from Whatcom Transit Authority in 2012. The design and engineer work on Alger Park and Ride began in 2012 and is expected to be completed in 2013. Design and engineering of the remodel project for Skagit Station started in 2012.

Inventory levels increased by $13,700 during 2012. It is expected that inventory levels will be maintained at appropriate levels to match our service levels.

Skagit Transit was successfully awarded six (6) new federal grants and one (1) state grants in 2012. Skagit Transit continues to aggressively seek all available grants.

Cash and cash equivalents were decreased in 2012 from 2011. Skagit Transit was successful in receiving state and federal grants to fund most of the capital project such as the new Chuckanut Park & Ride and vanpool vans.

Operating Revenues

Operating Revenues for fares increased by $119,628 during 2012. Fixed Route service had a revenue increase of $51,524 or 12%, Dial-a-Ride had a decrease of $3,198, or 28% and Vanpool had an increase of $71,303, or 20%. Fixed Route ridership increased by 11.6% and Dial-a-Ride ridership decreased by 2%. Dial-a-Ride fares are by donation. Fixed Route riders paid regular fares on those flex routes in 2012. The vanpool ridership increased by 11.8% and mileage increased by 12.1% in 2012.
Non-Operating Revenues

Revenues from the transit portion of the sales tax increased by $536,316 or 6% over 2011. In November 2008, the proposition to increase sales tax from 2/10 of 1% to 4/10 of 1% was approved by the voters and went into effect in April 2009.

Interest income was $25,604 in 2012. It increased in 2012 by 1% from $25,261 received in 2011.

Grant revenues were derived from fifteen (15) federal, state and local grants for use in capital and operating expenditures.

Operating Expenses

Operating expenses decreased during 2012 as a result of completion of Chuckanut Park and Ride project.

Fixed Route refers to regularly scheduled buses operating on established routes.

Dial-A-Ride refers to ADA paratransit service that is scheduled through a dispatch center.

Vanpool service was initiated in June 2002. The Skagit Transit Vanpool program supported 47 vanpool groups compared to 41 groups in 2011. The increase in participation was attributed to higher fuel costs, additional demand by Boeing workers and increased environmental awareness. Many large employers have increased subsidies to make it advantageous to use vanpools.

Operating Expenses by Department

Operations – $5,225,102 - The department is responsible for all on-street services, including operators, dispatchers, and scheduling for bus service to the public.

Maintenance - $1,744,779 – The department is responsible for all vehicles including fueling, parts, cleaning, servicing, and facility upkeep.

Administration - $2,191,661 – The department is responsible for all other functions including executive direction, planning, marketing, information systems, purchasing, finance, human resource, and safety.

Depreciation - $1,610,583 - This is the estimated pro-ration of the cost of capital assets over the useful life of the asset.

Total Operating Expenses were $10,772,125.

Capital Assets are depreciated based on their actual costs spread over their useful life.
Economic Factors and Future Outlook

Skagit County includes the Mount Vernon Urbanized Area (UZA). This UZA is comprised of the urban growth areas of the cities of Mount Vernon, Burlington, and Sedro-Woolley. This designation of the UZA brings to Skagit Transit the availability of receiving federal funding for urban transit systems. It also brings the responsibility of Skagit Transit’s involvement in the new Metropolitan Planning Organization.

The population of Skagit County has been growing at rates slightly less than population growth throughout the state. During the time period from 2000 through 2010, the county population grew at 13.5% rate compared to 14.08% for the state.

The economy had been hit hard by the layoffs by the various large employers located in Seattle and Everett. The economic recovery has improved slightly in 2012.

Skagit Transit’s main source of revenue is a portion of the local sales tax, which also serves as an economic barometer. The sales tax revenue increased by 55.5% in 2009 over 2008, 9.8% in 2010 over 2009, 7% in 2011 over 2010, and 6% in 2012 over 2011. The large increase in 2009 was due to the increased share of sales tax from 2/10 of 1% to 4/10 of 1% that began in April 2009.

The county’s average unemployment rate in April 2012 was 9.2% compare to 10.1% in April 2011.

Skagit Transit’s revenues were severely cut in 2000 when the Motor Vehicle Excise Tax (MVET) was removed. Skagit Transit operated slightly reduced service levels for the next two years using reserve funding as authorized by our Board of Directors. When the PTBA residents soundly defeated an attempt to increase the local transit portion of sales tax in September of 2002, Skagit Transit was forced to reduce service substantially and live within its revenue flow. The budget was designed to allow minimal growth in services while staying within the revenue stream. In November 2008, the Proposition to increase sales tax by 2/10 of 1% for Skagit Transit was passed. The increase in sales tax revenue will ensure Skagit Transit will be able to implement more services in the PTBA.

Grant applications have been submitted for the 2013-2015 fiscal years. Outside restriction on the reserve funds and their use, other Skagit Transit assets are without restriction, commitments or other limitations for future use.

Skagit Transit management has made a commitment to meeting the needs of the public, in a financially sound manner. A 30% enhancement of fixed route service began in September 2012.

Capital Assets

Skagit Transit’s investment in capital assets as of December 31, 2012, amounted to $17,078,970, net accumulated depreciation. Capital assets consist of transit coaches and other vehicles, buildings, equipment, transit centers and park and ride lots. Capital assets increased by 2% during the year. In 2012, Skagit Transit purchased one (1) staff vehicle, eight (8) new Dial-A-Ride buses and twenty-four (24) vans for the vanpool program. Three (3) used 2004 Gilligs
were purchased from Whatcom Transportation Authority. Three Park and Rides (Chuckanut Park and Ride, South Mount Vernon and March’s Point) are completed and opened to the public and construction of the Alger Park and Ride will be completed in 2013.

Please refer to Note 3 of Notes to the Financial Statements for more information.

**Request for Information**

This financial report is designed to provide a general overview of the PTBA’s finances for all those who have an interest in this agency’s finances. Questions concerning any of the information presented in this report or requests for additional financial information should be addressed to the Manager of Finance & Administration, 600 County Shop Lane, Burlington, WA 98233, telephone 360-757-8801.
### ASSETS

**Current Assets:**
- Cash: $4,801,901
- Investments: $8,488,489

Note 1: Summary of Significant Accounting Policies

Skagit Transit Authority (Skagit Transit) was authorized on November 3, 1992 and operates under the laws of the State of Washington applicable to a Public Transportation Benefit Area (PTBA). The accounting and reporting policies of Skagit Transit conform to Generally Accepted Accounting Principles (GAAP) applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following summary of the significant accounting policies is presented to assist the reader in interpreting the financial statements. The more significant policies are described below. These notes should be viewed as an integral part of the accompanying financial statements.

a) Reporting Entity

Skagit Transit is a special purpose government and provides public transportation to the general public and is supported primarily through local sales tax. The agency is governed by an elected nine member board. Skagit Transit has no component units. Skagit Transit’s basic financial statements include the financial position and results of the operations of the PTBA. A review of other units of local government, using the criteria set forth in GAAP, indicates there are no additional entities or funds for which the PTBA has reporting responsibilities. Based on the standards set by GASB-14, there are no component units of Skagit Transit.

b) Basis of Accounting & Presentation

The accounting records of Skagit Transit are maintained in accordance with methods prescribed by the State Auditor Office under the authority of Chapter 43.09 of the RCW. Skagit Transit uses the Budgeting, Accounting and Reporting System (BARS) for Transit Districts (GAAP) in the State of Washington.

Funds are accounted for on a cost of services or an economic resources measurement focus. This means that all assets and all liabilities (whether current or noncurrent) associated with their activity are included on their statements of net position (or balance sheets). Their reported fund net position is segregated into net investment in capital assets, restricted and unrestricted components of net position. Operating statements present increases (revenues and gains) and decreases (expenses and losses) in net position. Skagit Transit discloses changes in cash flows by a separate statement that presents their operating, noncapital financing, capital and related financing and investing activities.

Skagit Transit uses the full-accrual basis of accounting where revenues are recognized when earned and expenses are recognized when incurred. Capital asset purchases are capitalized and long-term liabilities are accounted for in the appropriate fund(s).
The Agency distinguishes between operating revenues and expenses from nonoperating ones. Operating revenues and expenses result from providing services and producing and delivering goods in connection with the Agency’s principal ongoing operations. The principal operating revenues of the transit are charges to customers for fare box collections and bus pass sales. Operating expenses for the Agency include (e.g., the cost of sales and services, administrative expenses, depreciation on capital assets, etc.). All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The accounting records of Skagit Transit are maintained in accordance with the methods prescribed by the Federal Transit Administration (FTA) and the Washington State Auditor under the authority of Revised Code of Washington (R.C.W.) 43.09. The authority for the FTA to prescribe an accounting and reporting system is found in Section 15 of the Federal Transit Act of 1992, as amended.

Skagit Transit began participating in the FTA National Transit Database beginning with FY 2005. A Six-Year Planning summary report has been sent to the Washington State Department of Transportation (WSDOT), under separate cover.

**c) Assets, Liabilities, and Net Position**

a) Cash and Cash Equivalents
   It is Skagit Transit’s policy to invest all temporary cash surpluses. For purposes of the Statement of Cash Flows, the agency considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. State statutes permit Skagit Transit to invest in obligations of the United States, certificates of deposits issued by banks that are designated as public depositories by the Washington Public Deposit Commission, the Local Government Investment Pool of the Washington State Treasurer or authorized investments through the Skagit County Treasurer.

   Investments for Skagit Transit are reported at fair value. The State Treasurer’s Local Government Investment Pool operates in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares. For other property and investments – See Note 2.

b) Receivables
   Accounts receivable consist mainly of bus passes sold, vanpool charges and local sales tax collected. Farecard and vanpool charges receivable was $15,446, and local sales tax receivable was $1,650,714.

c) Amounts Due From Other Governments
   Amounts due from other governments include grant reimbursements of $1,407,498 and fuel tax refund of $6,387.
d) Inventories
Inventory consists of fuel, repair parts and supplies. No general administrative expenses are included in the inventory valuation. Expenses are recorded as the materials are consumed. Inventory is valued on the average cost method. At 12/31/12, Skagit Transit carried an inventory valued at $264,806 for consumable parts and supplies used in the maintenance and repair of vehicles.

e) Restricted Assets and Liabilities
Skagit Transit has no restricted assets and liabilities.

f) Capital Assets
Capital Assets include property, facilities, and equipment and are capitalized at total acquisition cost provided that such costs exceed $5,000 and the asset has a useful life of at least two years. Depreciation is recorded on all depreciable capital assets on a straight-line basis over the following estimated useful lives:

<table>
<thead>
<tr>
<th>Asset Type</th>
<th>Useful Life</th>
</tr>
</thead>
<tbody>
<tr>
<td>Land</td>
<td>Not Depreciated</td>
</tr>
<tr>
<td>Buildings &amp; Structures</td>

</tr>
<tr>
<td>Other Vehicles</td>
<td>4-7 years</td>
</tr>
<tr>
<td>Shop Equipment</td>
<td>10 years</td>
</tr>
</tbody>
</table>

Capital Assets & Depreciation – See Note 3

g) Compensated Absences
Compensated absences are absences for which employees will be paid using general leave.

General leave, which may be accumulated up to 25 days, is payable upon resignation, retirement, or death if the employee has successfully completed their probation period.

All compensated absences that are unused at the end of each year are listed on the balance sheet as a liability. The current liability for compensated absences equaled $39,631 as of December 31, 2012 and noncurrent liability was $183,302.

The classification of short-term and long-term is based on a five-year historical average on leave paid as a percentage of the liability.

<table>
<thead>
<tr>
<th></th>
<th>Current Liability</th>

<td>39,631</td>
<td>183,302</td>
<td>$222,933</td>
</tr>
</tbody>
</table>
h) Fund Reserves & Designations – See Note 10

i) There were no material violations of finance related legal or contractual provisions during FY 2012.

**Note 2 – Deposits & Investments**

Skagit Transit’s deposits and certificates of deposits are covered entirely by federal depository insurance (FDIC) or by collateral held in a multiple financial institution collateral pool administered by the Washington Public Deposit Protection Commission (PDPC).

**Investments**

Skagit Transit invests in short term investments which produces a low interest rate risk. The Local Government Investment Pool investment policy requires a 90 day maximum on the weighted average maturity. As of December 31, 2012, Skagit Transit had the following investments:

<table>
<thead>
<tr>
<th>Investment</th>
<th>Cost</th>
<th>Fair Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>Local Governmental investment Pool</td>
<td>$8,488,489</td>
<td>$8,488,489</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>$8,488,489</strong></td>
<td><strong>$8,488,489</strong></td>
</tr>
</tbody>
</table>

**Disclosure Relating to Credit Risk**

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignments of a rating by a nationally recognized statistical rating organization. The Washington State Local Government Investment Pool is an unrated 2a-7 like pool, as defined by GASB 31. Accordingly, participants’ balances in the LGIP are not subject to interest rate risk, as the weighted average maturity of the portfolio will not exceed 90 days. Rule 2a-7 funds are limited to high quality obligations such as the US government, government sponsored enterprises, or insured demand deposit accounts and certificates of deposit with limited maximum and average maturities, the effect of which is to minimize both market and credit risk. Investments or deposits held by the LGIP are held by a third-party custody provider in the LGIP’s name.

**Note 3 – Capital Assets & Related Depreciation**

Major expenses for Capital Assets, including capital leases, and major repairs to assets that increase their useful lives are capitalized. Maintenance, repairs and minor renewals are accounted for as expenses when incurred.

All Capital Assets are valued at historical cost (or estimated historical cost, where historical cost is not known) or estimated market value for donated assets.

Furnishings, equipment and buildings are capitalized if they have a useful life of more than two years and an acquisition cost of $5,000 or more per unit. Items that are sensitive in nature and whose acquisition cost is less than $5,000 are coded to an appropriate expense category when purchased, but are assigned a capital asset number.
Skagit Transit has acquired certain assets with funding provided by federal financial assistance programs. Depending on the terms of the agreements involved, the federal government could retain an equity interest in these assets. However, Skagit Transit has sufficient legal interest to accomplish the purposes for which the assets were acquired, and has included such assets within the applicable account.

The original cost of operating property retired or otherwise disposed of and the cost of installation is charged to accumulated depreciation. However, in the case of the sale of a significant operating unit or system, the original cost is removed from Skagit Transit asset accounts, accumulated depreciation is charged with the accumulated depreciation related to the property sold, and the net gain or loss on disposition is credited or charged to income.

Depreciation is computed on the straight-line basis. Depreciation expense is charged to operations to allocate the cost of Capital Assets over their estimated useful lives, using the straight-line method with useful lives of three to fifty years.

Capital Assets and accumulated depreciation are categorized at January 1, 2012, and again at December 31, 2012, and are as follows:

Total Capital Assets, Being Depreciated, Net $12,560,507 $12,740,023

Total Net Capital Assets $16,734,070 $17,078,970
Individual useful lives are assigned to newly acquired or rebuilt assets as follows:

- **Land**: Not Depreciated
- **Buildings**: 30-50 years
- **Buses**: 5-12 years
- **Other Vehicles**: 3-5 years
- **Shop Equipment**: 10 years
- **Route Improvements**: 20 years
- **Furniture & Fixtures**: 10 years
- **Intangible Assets**: 5-10 years
- **Computer Equipment**: 5 years
- **Vehicle Improvements**: 3-5 years

**Note 4 – Prepaid Rent – Skagit Station**

Skagit Transit had no prepaid rent at year end 2012.

**Note 5 – Qualified Retirement**

All of Skagit Transit’s employees have the opportunity to participate in a 401(a) Defined Contribution Plan administered by Great-West Retirement Services.

Effective 7/01/2002, the employees voted to participate in Social Security (OASDI/Old Age, Survivors and Disability Insurance). At that time, the Skagit Transit Board of Directors modified the contribution levels to be:

**401(a) Defined Contribution Plan (mandatory)**

- 5.00% by Skagit Transit
- 5.00% by the employee

**401(a) Defined Contribution Plan**

A defined contribution plan provides benefits in return for services rendered, provides an account for each participant, and specifies how contributions to the individual’s accounts are to be determined instead of specifying the amount of benefits the individual is to receive. Under a defined contribution plan, the benefits a participant will receive depend solely on the amount contributed to the participant’s account, the returns earned on investments of those contributions, and forfeitures of other participants’ benefits that may be allocated to such participants’ accounts.

Skagit Transit employees begin mandatory participation in the 401(a) plan on the first day of employment. Contributions made by Skagit Transit vest over a 5-year period, upon the completion of each year of service (10%, 20%, 30%, 40%, 100%). An employee who leaves Skagit Transit is entitled to Skagit Transit contributions plus investment earnings at the vesting level attained.
Plan balances and contributions for FY 2012 and FY 2011 were as follows:

</tbody>
</table>

Under Current IRS rules, the 401(a) plan is held in trust for the employees. It is the opinion of Skagit Transit’s legal counsel that Skagit Transit has no liability for losses under the plans, but does have the duty of due care that would be required of an ordinary prudent investor.

There are no other post-employment benefits.

Note 6 – Insurance

A. **Unemployment Insurance**
   Skagit Transit has elected to remain self-insured for unemployment compensation.

B. **State Industrial Insurance**
   Skagit Transit is covered by State Industrial Insurance.

C. **Medical, Dental, and Vision Insurance**
   A comprehensive medical, dental, and vision insurance program covers employees of Skagit Transit. The medical premiums are paid 95% by Skagit Transit with the employees sharing 5% for full time employees. Other insurances are paid for by Skagit Transit.

D. **Life Insurance**
   Regular employees have a $12,000 term life insurance policy that also offers some coverage for dependents. Skagit Transit pays the premium.
E. **Short & Long-Term Disability Insurance**

Skagit Transit pays up to 2% of the gross wage of the regular employee (who works a minimum 30 hours per week) to purchase short and long-term disability insurance. The short-term disability benefit is for 180 days. The long-term disability benefits the employee for two years beyond the exhaustion of the short-term benefit.

**Note 7 – Risk Management**

**Washington State Transit Insurance Pool (WSTIP)**

Skagit Transit is a member of the Washington State Transit Insurance Pool (WSTIP). Chapter 48.62 of the R.C.W. authorizes the governing body of one or more governmental entities to form together into or join a pool or organization for the joint purchasing of insurance, and/or joint self-insuring, and/or joint hiring or contracting for risk management services to the same extent that they may individually purchase insurance, self-insure, or hire or contract for risk management services. An agreement to form a pooling arrangement was made pursuant to the provision of Chapter 39.94 of the R.C.W., the Interlocal Cooperation Act. The Pool was formed on January 1, 1989 when eight transits in the state of Washington joined together by signing an Interlocal Government Agreement to pool their self-insured losses and jointly purchase insurance and administrative services. Twenty-four (24) transits from the states of Washington and Ohio have joined the Pool.

The Pool allows member programs of joint self-insurance, joint purchasing of insurance and joint contracting for hiring of personnel to provide risk management, claims handling and administrative services. The coverage provided by the pool are property and liability insurance protecting the member systems’ assets and personal property, and from claims arising from the negligent or other tortuous conduct of the member transit system, their officers, employees, or agents.

The Pool is fully funded by its member participants. Members make an annual contribution to the pool. The pool acquires reinsurance from unrelated underwriters that are subject to a pool per-occurrence self-insured retention. Members are responsible for the selected deductible amounts of each claim. Claims are filed by members and WSTIP performs claims adjustments, loss prevention, and appraisal services.

Skagit Transit joined the Washington State Insurance Pool in July 1993, for coverage effective August 1, 1993. The insurance pool covers auto and general liability, property, auto physical damage, boiler-machinery, public official’s liability, public honesty bond, monies and securities, and depositors forgery insurance for Skagit Transit.

The pool’s governing body consists of its Board of Directors, which is comprised of one representative and alternate from each member system. The Executive Committee consists of the pool’s annually elected officers, the Past-President and two at-large positions. The Executive Committee handles the day-to-day operations of WSTIP and serves as a Claims Review Committee in all cases involving reserves in excess of $35,000.
The pool’s responsibilities include:

- Providing for the management and operation of the pool;
- Providing for excess liability coverage for the members;
- Establishing deductibles and/or limits to any coverage that is provided;
- Providing an annual report and audit of the operation of the pool to the members, State Risk Manager, and the State Insurance Commissioner;
- Establishing and maintaining such funds and accounts as may be required by GAAP;
- Establishing and maintaining annual budgets for the operation of the pool;

Member responsibilities include:

- Appointing a Director and at least one Alternate Director to the board;
- Appointing an employee of the transit agency to be responsible for the risk management function within that agency;
- Maintaining an active safety officer and/or committee, and considering all recommendations of the pool concerning the development and implementation of a loss control policy to present unsafe practices;
- Reporting all losses to the pool to insure accuracy of the pool’s loss data base;
- Paying its premium and any readjusted amount promptly to the pool when due.
- Providing the pool with such other information or assistance as may be necessary for the pool to carry out its responsibilities.

As of December 31, 2012, coverage includes:

Note 8 – Contingent Liabilities

Skagit Transit has recorded in its financial statements all material liabilities, including an estimate for situations that are not yet resolved, but where, based on available information, management believes it is probable that Skagit Transit will have to make payment. In the opinion of management, Skagit Transit’s insurance policies and reserves are adequate to pay all known or pending claims.

Based on the above criteria Skagit Transit has no unresolved claims against it at December 31, 2012.

The agency participates in a number of Federal assisted programs. These grants are subject to audit by the grantors or their representatives. Such audits could result in request for reimbursement by grantor agencies for expenses disallowed under the terms of the grant. Skagit Transit management believes that such disallowance, if any, will be immaterial.

Note 9 – Commitments & Leases

Commitments

At December 31, 2012 Skagit Transit had the following in effect:

<table>
<thead>
<tr>
<th>Contractor</th>

Note 10 – Reserve Accounts

The Skagit Transit Board of Directors by Resolution No. 50 established a reserve account. In subsequent action, the Board separated the account into three distinct categories. All action within these accounts, not including usual interest receipts, is required to be Board approved. As of December 31, 2012, the account balances were:

<table>
<thead>
<tr>
<th>Capital Reserve:</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Facilities</td>
<td>400,000</td>
</tr>
<tr>
<td>Capital Replacement</td>
<td>3,843,502</td>

<tr>
<td>Undesignated Reserve</td>
<td>2,158,089</td>
</tr>
<tr>
<td>Operating Reserve</td>
<td>2,086,898</td>
</tr>
<tr>
<td>Total</td>
<td>$ 8,488,489</td>
</tr>
</tbody>
</table>

Note 11 – Other Disclosures

Labor Negotiations
On February 21, 2007, the Skagit Transit Board approved a contract with Local 176T of the Washington State Council of County and City Employees affiliated with the American Federation of State, County and Municipal Employees, AFL-CIO. AFSCME represents the Fixed Route and Dial-a-Ride operators at Skagit Transit. The current one-year contract was signed on February 4, 2013 and expires on December 31, 2013.

The accompanying notes to the Schedule of Expenditures are an integral part of this schedule.
NOTE 1 - BASIS OF ACCOUNTING

This schedule is prepared on the same basis of accounting as the Skagit Transit's financial statements. The Skagit Transit uses the accrual basis of accounting.

NOTE 2 - PROGRAM COSTS

The amounts shown as current year expenditures represent only the federal grant portion of the program costs, after program income has been removed. Entire program costs, including the Skagit Transit's portion, are more than shown.
The State Auditor's Office is established in the state's Constitution and is part of the executive branch of state government. The State Auditor is elected by the citizens of Washington and serves four-year terms.

Our mission is to work with our audit clients and citizens as an advocate for government accountability. As an elected agency, the State Auditor's Office has the independence necessary to objectively perform audits and investigations. Our audits are designed to comply with professional standards as well as to satisfy the requirements of federal, state, and local laws.

The State Auditor's Office employees are located around the state to deliver services effectively and efficiently.

Our audits look at financial information and compliance with state, federal and local laws on the part of all local governments, including schools, and all state agencies, including institutions of higher education. In addition, we conduct performance audits of state agencies and local governments and fraud, whistleblower and citizen hotline investigations.

The results of our work are widely distributed through a variety of reports, which are available on our Web site and through our free, electronic subscription service.

We take our role as partners in accountability seriously. We provide training and technical assistance to governments and have an extensive quality assurance program.
